

Ground broken for new ambulatory care center, comprehensive outpatient cancer center

SAN ANTONIO REGIONAL HOSPITAL AND CITY OF HOPE recently hosted an official groundbreaking ceremony to celebrate a milestone in the development of a new Ambulatory Care Center that will include a comprehensive outpatient cancer center.

Key executives and medical staff members from San Antonio Regional Hospital, San Antonio Hospital Foundation, and City of Hope attended the event, which was held Nov. 14 at 1100 San Bernardino Road in Upland, directly across the street from San Antonio Regional Hospital.

Earlier in 2017, City of Hope and San Antonio Regional Hospital officials announced a partnership that will significantly expand the Inland Empire's access to leading-edge, high-quality cancer care coupled with world class research and technology. As part of the relationship, City of Hope will open a comprehensive cancer center in San Antonio

Regional Hospital's new Ambulatory Care Center being developed across the street from the recently expanded hospital campus. The multidisciplinary center of excellence will provide radiation oncology, medical and surgical oncology, chemotherapy, and other cancer-related services and programs.

About San Antonio Regional Hospital

San Antonio Regional Hospital in Upland is a 363-bed, nonprofit, acute care hospital that combines excellent clinical care with exceptional compassion. The award-winning hospital offers a comprehensive range of general medical and surgical services, along with the latest technological advances in cardiac care, cancer care, orthopedics, neurosciences, women's health, maternity and neonatal care, and emergency services.

Since 1907, San Antonio Regional Hospital has emerged as a premier regional medical facility with satellite locations across the rapidly expanding Inland Empire. The hospital has completed a major expansion project that adds a new 52-bed emergency department and a 92-bed patient tower comprised of 80 private rooms and 12 critical care beds on its main

hospital campus. The expansion positions San Antonio as a hospital of the future, offering state-of-the-art health care services in a healing environment that is focused on the patient and family.

About City of Hope

City of Hope is an independent research and treatment center for cancer, diabetes and other life-threatening diseases. Designated as one of only 49 comprehensive cancer centers, the highest recognition bestowed by the National Cancer Institute, City of Hope is also a founding member of the National Comprehensive Cancer Network, with research and treatment protocols that advance care throughout the world.

City of Hope is located in Duarte, California, just northeast of Los Angeles, with community clinics throughout Southern California, including the Inland Empire. It is ranked as one of "America's Best Hospitals" in cancer by *U.S. News & World Report*. Founded in 1913, City of Hope is a pioneer in the fields of bone marrow transplantation, diabetes and numerous breakthrough cancer drugs based on technology developed at the institution. ■
